

Fits and Shapes

Our Mist shape is a more progressive fit designed with a slightly more shallow crown depth.

The front of the hat is a single engineered panel, dividing the top horizontally.

Inside with a quilted sweatband designed to comfortably fit.

The Sunny is another cap format that allows you to adjust the head size.

It has a buckle that allows a more precise adjustment of head size. It is a more classic cap model just by the shape and the curved flap present.

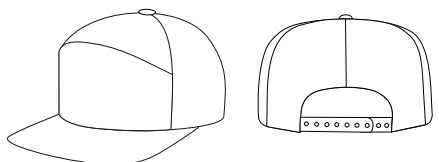

This type of flap is perfect for its practicality. It is easy to use and save.

This cap format, designated by Storm, is part of a recent trend.

Because it can adjust to its size, allowing it to fit perfectly in your head.

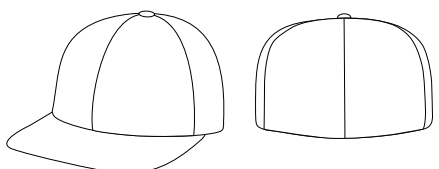

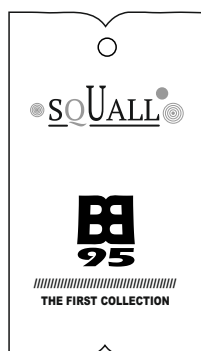

For this reason, it can suit anyone for its functionality and style.

The Gale fit is new shape for the headwear user, completely focused on the comfort of people.

The horizontal front seam has been created to allow both larger and smaller shaped heads to fit nicely, while maintaining a more urban fashion and a more advance look.

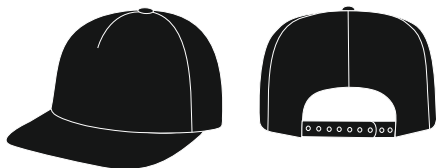

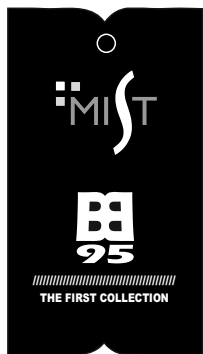

Inside with a quilted sweatband designed to comfortably fit.

Our Squall format ensures total comfort, quality and durability. It is a plain cap, closed behind and with a straight flap.

The material is resistant ideal for day by day life being flexible with the presence of elasticity in the crown of the cap. It allows a visual with personality, elevating its urban and sporty traits.

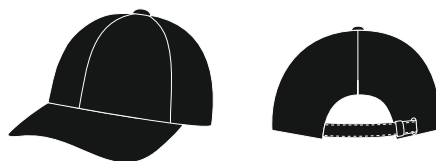

Squall is much more than an accessory, it represents originality and style.
